HMHB Legislative Alert
Friday, April 13, 2007
Urgent Action Needed Today

Call your legislators today at 1-800-511-6259 today!
Ask them to oppose cuts to PeachCare.

AARP is asking its members to make calls to their Senators to oppose HB 340 and they are graciously allowing us to share their 800 number with all advocates concerned about this issue.

AARP's toll free number will connect callers to their Senate. Please feel free to distribute to your members.

You will hear the following recorded message:

"Thank you for calling the AARP Georgia Legislative Hotline.

AARP believes that all children should have health insurance. PeachCare provides health coverage to children from low-income working families. In Georgia, every tenth child has PeachCare coverage.

The Georgia General Assembly is considering House Bill 340. House Bill 340 would deny coverage to many children who otherwise would be covered. House Bill 340 would also cut services for children currently enrolled in PeachCare by making dental and vision services harder to get.

AARP Georgia strongly opposes House Bill 340. We need to be reducing the number of uninsured not increasing the number. What is bad for children is bad for us all.

Tell your State Senator to vote NO on House Bill 340."

Once connected, tell your Senator to vote NO on House Bill 340 and to protect Georgia's children!

Thank You!
